

**January 10, 2005**

**WEST VIRGINIA BULLETIN NO: WV360-5-12**

**SUBJECT: Concentrated Animal Feeding Operations (CAFO) Rule and Regulations Training**

**Purpose: To inform employees of an upcoming CAFO Training Session.**

**Expiration Date: This bulletin expires December 30, 2005.**

**Action Requested By: March 1, 2005**

**WV Department of Agriculture is sponsoring an inform local, state, and USDA agencies training session on the recently adopted Concentrated Animal Feeding Operations (CAFO) rule and regulations. The training will be held March 10, 2005 at the Days Inn in Flatwoods, West Virginia. (See attached Agenda)**

**This is an excellent opportunity for NRCS planners to gain knowledge, understanding, and practical implementation of required management systems to significantly reduce the potential for CAFO to degrade water quality. This may have a significant influence on delivery of programs, structural designs, or livestock management systems in WV. An additional expectation is that the involved agencies (at the county level) would use this training to train/inform farmers on these new state rules and how the rule affects them.**

**Please refer to the attached list for those who are expected to attend this training. Please provide confirmation to Charlotte Wertz, SAO, of your attendance by March 1, 2005.**

**The WVDA sponsorship includes a lunch which would be paid for in advance by NRCS.**

**If you have questions or need additional information, please contact Charlotte Wertz at 304-284-7551 or [Charlotte.Wertz@wv.usda.gov](mailto:Charlotte.Wertz@wv.usda.gov).**
